CAREER SUMMARY

To work in a challenging and stimulating environment with dedication and innovation and to contribute my knowledge and skills for growth of the organization and constantly grow as a professional.

EXPERIENCE

Senior Data Engineer (Azure Specialist) | Tata Consultancy Services (Client: Standard Chartered Bank)

SEPTEMBER 2022 – PRESENT

- Working with big data technologies such as **Hadoop**, **Hive**, **PySpark**, **Kafka**, Informatica and Teradata databases to process and analyze large datasets.
- Developed **Python** scripts to automate data validation, quality checks, and file processing tasks, reducing manual effort and improving efficiency.
- Collaborated with Product Owners to analyze reporting requirements, gather business insights, and define data mapping rules for new report development.
- Designed, built, and optimized Informatica **ETL pipelines** for end-to-end data **migration** from **IBM DB2 source to DB2 target**, maintaining high data quality and consistency across environments.
- Identified and troubleshooted data-related issues, implemented solutions, and performed root cause analysis using **SQL** and **Python** debugging scripts.
- Designed and implemented data ingestion pipelines by consuming **real-time data** from **Apache Kafka**, applying necessary transformations, and loading the processed data into **HDFS** and target relational databases.
- Demonstrated proficiency in using industry-standard tools and platforms such as TWS (Tivoli Workload Scheduler), **Git, TeamCity, Databricks, Snowflake, Azure DevOps**, and **Bitbucket** for data engineering tasks and project management.

Big Data Engineer (ETL Specialist) | Tata Consultancy Services (Client: Westpac Banking Group)

MARCH 2020 – AUGUST 2022

- Created and managed **Hive tables** using Shell scripts to support data warehousing and analytics processes, improving data accessibility and query performance.
- Utilized Apache Spark's RDD and **Data Frames for performing data cleaning**, transformation, and manipulation tasks on large-scale datasets.
- Developed **Spark jobs** and workflows to transform raw data into structured formats suitable for analysis and reporting, improving data usability.
- Created and managed **Control-M jobs** to automate data processing and workflow scheduling, reducing manual effort and improving operational efficiency.

Databricks Experience:

- **Developed and maintained scalable data pipelines** on Databricks using PySpark to process and transform large-scale structured and semi-structured data from various sources including HDFS, Kafka, and cloud storage.
- **Built and maintained ETL workflows** within **Databricks Notebooks**, automating data transformation and enrichment processes to meet business requirements and improve data

quality.

- **Collaborated with cross-functional teams** to leverage Databricks' capabilities for **advanced analytics and machine learning** models, assisting in delivering data-driven insights and driving business decisions.
- **Integrated Databricks with other tools** such as **Kafka** and **Snowflake** to ensure seamless data ingestion, storage, and consumption across the data pipeline.
- **Monitored and managed cluster performance**, identifying potential issues and fine-tuning resources to ensure optimal execution of big data jobs in a cost-effective manner.
- **Utilized Databricks Delta** for **ACID-compliant data lakes**, streamlining data consistency and enabling fast, reliable analytics across large datasets.
- **Implemented CI/CD pipelines** within **Azure DevOps** and **Git** to ensure continuous integration and deployment of Databricks notebooks and jobs, increasing development efficiency and reducing the risk

Certifications

- **IIT Kanpur Certified:** Bigdata Computing from **IIT Kanpur**.
- **Databricks Certified**: Data Engineer Professional, Databricks
- **Microsoft Certified**: Microsoft Fabric Data Engineer Associate, DP-700
- **Snowflake Certified:** SnowPro Advanced: Data Engineer, DEA-C02
- **IBM Certified:** Python For Data Science,
- **Microsoft Certified**: Microsoft Data Engineer Associate, DP-203

SKILLS

Python, Spark, SQL, Azure Data Factory, Data Bricks, Hadoop, Snowflake, Git, Delta Lake

EDUCATION

M.C.A in | UTTARAKHAND TECHNICAL UNIVERSITY, DEHRADUN

ACHIVEMENT

- ✓ Learning Milestone - **Completion of Learning milestone.**
- ✓ On the Spot Award - **Remarkable Contribution.**
- ✓ Dedication and commitment Learning Achievement Award - **Quick Learner.**
- ✓ Outstanding Contribution to the Organization STAR TEAM AWARD -

  Successfully Ingested 40 years old history data to Production pipeline.
