Mobile: 8660991795 | Email: shashikant.chandan4@gmail.com

Professional Summary

- 11+ years of IT experience in system analysis, software design, development, and implementation.
- Extensive hands-on experience in full SDLC, from requirement analysis to deployment.
- Proficient in Java 8, Spring Boot, Microservices,, Hibernate, JPA, Maven, Oracle, Aws services and MySQL.
- Strong knowledge of business process analysis and optimization.
- Excellent problem-solving and analytical skills.

Technical Skills

Languages & Frameworks: Java 8, Spring Boot, Spring MVC, Hibernate, JPA

Microservices & Cloud: Microservices, AWS

Databases: Oracle PL/SQL, MySQL, PostgreSQL

Version Control & Tools: Git, Bitbucket, SonarQube, JUnit, JMockit, Docker

Build Tools: Maven, Gradle

Application Servers: JBoss

Projects

Project: Private Banking – UOB

Company: HCL Technologies | Duration: Nov 2024 – Present | Role: Lead Consultant | Team Size: 20 | Domain: Private Banking

Technologies: Java 17, Spring Boot, Micro services, Apache camel, Maven,RabbitMQ, Docker,S3, Amazon Lambda.

Description:

Private Banking is a core banking initiative aimed at modernizing UOB's digital banking infrastructure by building and managing microservices.

Responsibilities:

• Designed and developed RESTful microservices using Spring Boot and JPA.
• Developed rest APIs for Instrument historical prices and implement Jasper reports for all the APIs.

Project: Private Banking – SCB

Company: HCL Technologies | Duration: Nov 2021 – Present | Role: Lead Consultant | Team Size: 20 | Domain: Core Banking

Technologies: Java 8, Spring Boot, Hibernate, Maven, Oracle, AWS, Kafka, Docker

Description:

Core Banking is a core banking initiative aimed at modernizing SCB's digital banking infrastructure by building and managing microservices.

Responsibilities:

• Solely responsible for key services like Presentment History API, Standing Instruction, Direct Debit Mandate, DPS Report, and CSE Advices.
• Designed and developed RESTful microservices using Spring Boot and Hibernate.
• Implemented event-driven architecture with Kafka for asynchronous communication.
• Deployed microservices to AWS cloud and containerized applications using Docker.
• Actively involved in performance tuning, production support, and CI/CD integration.

Project: Digital Experience Platform – NXP Semiconductors

Company: Tata Consultancy Services | Duration: Jul 2017 – Aug 2021 | Role: IT Analyst | Team Size: 15 | Domain: Semiconductor

Technologies: Java 8, Spring Boot, Hibernate, Oracle, AWS, Docker

Description:

Platform to raise and track quality issues with semiconductor parts, enabling better defect tracking and quality management.

Responsibilities:

• Full-stack ownership of Quartz, PATS, and Safe Launch modules.
• Collaborated with stakeholders to gather and translate requirements.
• Developed reusable components and ensured continuous integration.
• Acted as a bridge between onsite and offshore teams.

Project: SEI Online Services

Company: Tata Consultancy Services | Duration: Jul 2015 – Jun 2017 | Role: IT Analyst | Team Size: 8 | Domain: Financial Services

Technologies: Java 8, Spring MVC, Hibernate, Maven, Oracle, Git

Description:

SEI provides investment processing and advisory solutions to financial institutions and ultra-high-net-worth individuals.

Responsibilities:

• Developed automation and scripting tools to handle investment data feeds.
• Participated in Agile processes including grooming and planning.
• Maintained and extended modules across multiple Java environments.

Project: SSDG – e-Governance Platform

Company: Hewlett-Packard (via Manpower Group) | Duration: Nov 2013 – Jun 2015 | Role: Software Developer | Team Size: 20 | Domain: Government

Technologies: Seam, JPA, JBoss, PostgreSQL, ANT

Description:

SSDG is an e-Governance initiative to provide accessible and transparent services to the public via service delivery centers.

Responsibilities:

• End-to-end module ownership and client demos.
• Built reusable components using Seam and JPA.
• Supported live systems and addressed critical production issues.

Education

MCA – Cochin University of Science and Technology (CUSAT), 2012

BCA – IGNOU, 2008

Senior Secondary – Bihar Intermediate Education Council, 2004

Secondary – Bihar Secondary Education Board, 2002

Other Details

Domain Expertise: Manufacturing, Banking, Insurance

Preferred Location: Bengaluru
