Professional Summary

DevOps Engineer with 6+ years of experience in designing, automating, and optimizing mission-critical deployments on AWS and on-premises. Expertise in CI/CD pipelines, containerization, infrastructure as code, and monitoring. Proven track record of improving deployment efficiency, reducing costs, and enhancing system reliability through modern DevOps practices.

Key Skills

- Cloud: AWS (EC2, VPC, S3, RDS, EKS, ECS, IAM, CloudWatch), Cloudflare, Lightsail
- CI/CD: Jenkins, GitHub Actions
- Version Control: Git, GitHub
- Containerization: Docker, Kubernetes, Helm
- Infrastructure as Code: Terraform, Ansible
- Monitoring: CloudWatch, Grafana, Prometheus
- Scripting: Bash, Python
- Databases: MySQL
- OS: Linux (Ubuntu, CentOS), Windows

Work Experience

DevOps Engineer | Tekreant India Pvt Ltd | Feb 2025 – Present

- Automated CI/CD pipelines using Jenkins & GitHub Actions, reducing deployment time by 40%.
- Deployed containerized applications on AWS EKS, improving scalability and availability.
- Implemented monitoring with CloudWatch & Grafana, reducing incident resolution time by 30%.
- Collaborated with development teams to optimize release processes and environment stability.

DevOps Engineer | Sysnet Global Solutions, Hyderabad | Jan 2018 – Sept 2024

- Designed and implemented AWS infrastructure (EC2, VPC, IAM, Auto Scaling) for production workloads.

- Built and managed Kubernetes clusters on AWS; automated deployments with Helm & Terraform.
- Migrated on-prem workloads to AWS, achieving ~25% cost savings.
- Implemented secure access management with IAM, Security Groups, and VPC configurations.
- Streamlined build & release process using Jenkins, reducing failures by 20%.

Project Associate | CDAC Hyderabad | Jan 2017 – Dec 2017

- Migrated 700+ systems from Windows XP to BOSS (Debian-based Linux).
- Automated installation/configuration using shell scripts.
- Trained end users and provided Linux administration support.

Education

- M.Tech in Electrical Power Systems – JNTU Hyderabad (2014–2016)
- B.Tech in Electrical & Electronics Engineering – JNTU Hyderabad (2009–2013)
- Diploma in Electrical & Electronics Engineering – Govt Polytechnic, Masab Tank (2006–2009)

Certifications

- AWS Certified Solutions Architect – Associate (Planned/In Progress)
- Certified Kubernetes Administrator (CKA) – (Planned/In Progress)
