Summary

Accomplished Flutter Developer with 4+ years of expertise in building high-performance, cross-platform mobile applications. Specialized in performance optimization, clean architecture (BLoC, MVVM), and real-time features including BLE sensor integration and GraphQL. Proven track record of managing teams, driving agile delivery, and publishing polished apps to production. Strong commitment to code quality, continuous improvement, and open-source development.

Core Competencies

- **Programming Languages:** Dart, Kotlin, Swift, JavaScript
- **Mobile Development:** Cross-platform Apps, UI/UX, Performance Tuning, BLE Sensor Integration
- **Architecture & State Management:** BLoC, GetX, Provider, Riverpod, MVVM, Clean Architecture
- **Backend Integration:** Firebase, REST API, GraphQL, WebSocket
- **Testing:** Unit, Widget, Integration Testing, Profiling
- **Tools:** Git, VS Code, Android Studio, Xcode, CI/CD
- **Deployment:** Play Store, App Store, Release Pipelines

Work Experience

Flutter Developer and Team Lead

Wits Innovation Lab — May 2023 – Present

Blast Golf Project

- Led development of BLE-enabled golf swing tracking app, managing 5+ devs with agile sprints
- Designed scalable architecture using BLoC and implemented clean code principles
- Integrated BLE sensors for real-time analytics, ensured 60fps smooth performance
- Built custom chart dashboards using Canvas APIs
- Deployed CI/CD pipelines for automated testing and release

Flutter Developer

DigiMantra Innovations — Aug 2022 – May 2023

Mobile App Development

- Delivered 6+ apps with advanced state management (Provider, GetX)
- Built social, chat, and service-based apps with real-time features and Firebase Auth
- Applied performance profiling tools and testing automation for robust delivery

Flutter Developer

Netscape Labs — Jun 2021 – Aug 2022

Client Project Delivery

- Shipped 4+ production-ready apps with MVC and BLoC architecture
- Integrated APIs for payment, mapping, and communication features
- Delivered high-quality UI adhering to modern UX standards

Key Projects

Blast Golf BLE sensor-enabled golf training app with swing analysis dashboard.
Bricks and Bobs Marketplace for construction materials using Google Maps API.
DeliveryX Real-time package tracking app with Firebase and location services.
PlayDates Event-based social app with real-time chat and push notifications.

Open Source Contributions

Flutter HLS Video Player

- Built adaptive HLS streaming player using video_player and chewie
- Enabled network-aware quality switching and buffer control
- Published on Pub.dev for community usage

Push Fire Notifications

- Firebase-based push notification package with background/foreground handling
- Integrated deep linking, images, and custom action support
- Designed modular code and public documentation

Education

Bachelor of Computer Applications (BCA)
Guru Nanak Dev University, Jalandhar (2017 – 2020)
- Focused on OOP, data structures, and application development
- Built foundations in client-server systems and programming logic
