PROFILE

Flutter Developer with 3.5+ years of experience designing and building cross- platform mobile applications using **Flutter and Dart**. Strong focus on **pixel-perfect UI/UX**, performance optimization, and seamless user experiences on iOS and Android. Skilled in **testing, debugging, and problem-solving**, with a proven track record of delivering scalable and maintainable apps. Adept at collaborating with designers, product managers, and backend teams to deliver features on time. Passionate about creating clean, maintainable code and contributing to team success.

SKILLS

- **Languages:** Dart, Java, Kotlin, Swift, C++, JavaScript
- **Frameworks/Tools:** Flutter, GetX, Provider, Firebase, REST APIs, GraphQL, MediaKit
- **UI/UX:** Responsive Design, Custom Animations, Material Design, Widget Reusability
- **Testing:** Flutter Test, Integration Testing, Debugging with DevTools
- **Databases:** SQLite, Hive
- **Other:** Git, GitHub, Android Studio, Xcode, CI/CD, Agile/Scrum

PROFESSIONAL EXPERIENCE

Unico Connect, *Mobile App Developer* 09/2024 – Present | Mumbai, India

- Developed and maintained cross-platform mobile apps using Flutter, focusing on **smooth UI and responsive design**.
- Implemented **audio recording & playback, push notifications, deep linking**, and event modules.
- Built **directory module** with indexed scroll, search, filters, and sticky headers for a native-like user experience.
- Optimized application performance by **reducing crash rates by 30%** and **cutting load times by 25%** through efficient caching strategies and robust state management using GetX.
- Collaborated with designers and product managers to deliver pixel- perfect UI and intuitive workflows.

BridgeLabz, *Flutter Developer* 06/2024 – 09/2024 | Mumbai, India

- Migrated and refactored legacy components to **latest Flutter libraries** (e.g., flutter_typeahead, upgrader), ensuring long-term maintainability and compatibility with newer Flutter versions.
- Built **dynamic forms** with role-based workflows, improving user onboarding efficiency.
- Enhanced offline reliability with robust connectivity checks and caching strategies
- Developed **reusable Flutter packages and modular widgets**, reducing development effort by **20% across multiple projects** and improving code consistency.

Amazon Web Services, *Software Development Engineer* 06/2021 – 08/2023 | Seattle, USA

- Designed and optimized REST APIs using Spring Boot, reducing response times by 40%.
- Implemented microservices architecture supporting **3x concurrent users** without performance loss.
- Automated deployments with CI/CD pipelines, reducing release cycle times.
- Partnered with **product managers, QA, and backend engineers** in Agile sprints to deliver **highly reliable, production-ready backend services** supporting large-scale applications.

TruWeather Solutions, *Backend Developer Intern* 06/2020 – 08/2020 | New York, USA

- Built and structured REST APIs integrating **real-time weather data** for mobile visualization.
- Conducted **load and stress testing** to improve API response performance by 37%.
- Collaborated with frontend developers to deliver real-time weather.

EDUCATION

Syracuse University, *M.S. Computer Science | GPA: 3.47/4.0* 08/2019 – 05/2021 | New York, USA

Coursework: Design and Analysis of Algorithms, Object Oriented Design, Operating Systems, DBMS, Computer Architecture

Mumbai University, *B.E. Computer Engineering | GPA: 8.27/10.0* 07/2015 – 05/2019 | Mumbai, India

Coursework: Data Structures, Object Oriented Programming with Java, DBMS, Operating Systems, Cloud Computing, Computer Networks, Artificial Intelligence, Data Mining
